Comments

Self-study: try to spend at least 1h review/working on exercises for every hour of lecture (includes self-study over the weekend): this is why the course is kept to the morning as much as possible

I do not have office hours, but individual meetings can be arranged upon demand. Beyond this, feel free to send me any questions you may have in relation to the course material via mail at mareinha@mail.uni-mannheim.de

Zoom links for week 2 upon request via email to mareinha@mail.uni-mannheim.de
